

YOWON AI

Autonomous AI Jury Platform

Yowon AI-Autonomous AI Jury Platform

Hackathon Project

45	REJECT	HIGH
Overall Score	Deployment Decision	Risk Level

Generated: July 06, 2026 10:31 UTC

Executive Summary

Overview

The project has an overall score of 45 with a REJECT verdict and HIGH risk level. It shows potential in innovation (70) but struggles with technical aspects (20).

Evaluation Context

Item	Value
Selected Project Type	Hackathon Project
AI Detected Type	Not detected
Scoring Rubric Used	Hackathon Project
Evaluation Standard	Prototype quality, innovation, demo readiness, and execution under time constraints
Score Band	Functional
Confidence	36/100
Evidence Quality	Incomplete
Repository Completeness	0/100

Repository Statistics

Item	Value
Total Files	0
Code Files	0
Documentation Files	0
Presentation Files	0
Test Files	0
Configuration Files	0
Deployment Files	0
Data Files	0
Source Modules	0
Meaningful Files	0
Repository Completeness Score	0

Score Table

Category	Score	Grade
Forge	20/100	F
Sentinel	30/100	F
Scale	35/100	D
Visionary	70/100	B
Showcase	56/100	C
Guardian	58/100	C

Category Score Chart

Radar Chart

Risk Visualization

Risk Area	Signal	Risk Level
Security Risk	HIGH	
Evidence Gaps	5	
Deployment Readiness	45/100	

Strengths

- Innovative concept
- AI-driven jury decision support

Weaknesses

- Technical skills are lacking (20)
- Security concerns (30)

Positive Factors

- Documentation present
- Machine learning implementation

Missing Evidence

- No testing evidence
- No deployment evidence
- No security evidence
- No scalability evidence
- No substantive repository evidence

Deployment Roadmap

1. Develop a comprehensive project plan with clear milestones and deadlines.
2. Establish a robust testing framework to ensure platform stability.

Calibration Explanation

7 calibration adjustment(s) were applied.

Confidence Sources

- Repository completeness: 0/100
- Documentation quality: present

- Evidence coverage: 0/100
- Agent agreement: inferred from calibrated specialist scores

Penalties

- technical: Unable to verify source implementation from repository evidence
- technical: No substantive repository evidence
- technical: Testing evidence missing
- confidence reduced rather than treated as failure
- security: Unable to determine security posture from repository evidence.
- security: No substantive repository evidence
- security: Security-practice evidence missing
- confidence reduced
- scalability: Unable to verify scalability from repository evidence

Detailed Findings

Forge Analysis

Forge Analysis
Technical Score:
20/100
Strengths:
Innovative concept
Clear project description
Weaknesses:
No code review possible
Missing repository data
Risks:
Lack of source code for security assessment
Potential incomplete features

Sentinel Analysis

Sentinel Analysis
Security Score:
30/100
Risk Level:
LOW
Findings:
None evidenced.
Recommendations:
Run a security review and document controls.
Confidence:
40%

Visionary Assessment

Visionary Analysis
Innovation Score:
70/100
Scalability Score:
35/100
Differentiators:
AI-driven jury decision support
Autonomous platform
Risks:
Limited by hackathon scope
Recommendations:
Document novelty, baseline comparison, and scale assumptions.

Guardian Impact Analysis

Guardian Analysis
Impact Score:

58/100

Top Risks:

Lack of testing

Inadequate documentation

Security vulnerabilities

Expected Impact:

Data input errors

Model misinterpretation

API integration failures

Top Failure Predictions

- 1. Data input errors
- 2. Model misinterpretation
- 3. API integration failures

Scalability Assessment

Visionary Scalability Assessment

Scalability Score:

35/100

Risks:

Limited by hackathon scope

Recommendations:

Validate capacity assumptions with load tests and deployment evidence.

Showcase Review

Showcase Analysis

Presentation Score:

56/100

Strengths:

Clear problem statement

Innovative solution

Improvements:

Add technical details

Enhance demo readiness

Confidence:

45%

Cross Examination Results

No major contradictions detected across specialist agents.

Final Verdict

Blocking Issues

- No blocking issues recorded.

Recommended Fixes

1. Improve technical skills to increase overall score.
2. Address security concerns to reduce risk level.

Deployment Roadmap

1. Develop a comprehensive project plan with clear milestones and deadlines.
2. Establish a robust testing framework to ensure platform stability.

Deployment Decision

Verdict: REJECT
Overall Score: 45/100
Risk Level: HIGH
